बहुल जाति, भाषा धर्म, संस्कृति छन् विशाल
अग्रगामी राष्ट्र हाम्रो, जय जय नेपाल ।

राष्ट्रिय झण्डाको अभिवादन (Flag Salutation)

Rise to Empower

Generally, we understand the word ‘empowerment’ as the process of gaining freedom and power to do what we want or to control what happens to us.

It is a measure designed to increase the degree of autonomy and self-determination in order to enable people and communities to represent their interest in a responsible and self determined way, acting on their own authority. Empowerment helps to build confidence and makes stronger in their own way. Especially, it helps in controlling one’s life and claiming one’s right.

“If you have power you have to empower”

This philosophy can be used in each and every sector as well as social work. Providing different training programs and making them self-independent will be one of our main goal. Empowerment is more prevalent than you may think. It is said that people empower others since the day they were born. Empowerment helps to increase our living standard and if we rise empowerment and help other than we can definitely taste the pleasure of success with everyone. Success is never reached alone and wisdom and wealth are sweeter shared. The purpose of empowerment is much more than just having someone else complete whatever task you are delegating because it is simple and time consuming. In order to enable empower someone, we need to know their wants and desire. We need the authority to ensure the completion of requested task.

Empowerment build the capacity of individuals, group and community to take control of their circumstances, exercise power and achieve their own goals, both individually and collectively. It also refers both to the process of self-empowerment and to professional support of people, which enables them to overcome their sense of powerlessness and lack of influence and to recognize and use their resources.

“Be the change that you wish to see in the world“

Empowerment includes encouraging and developing the skills for self-sufficiency with a focus on eliminating the future need for welfare in the individuals.

According to Bill Gates, as we look ahead into the next century, leaders will be those who empower others. So, empowerment is most important for everyone for increasing the productivity and lead the world to its best version.

“Surround yourself with people who empower you to become better”

“Rise to Empower”

The International Lions Headquarter

Headquarters of the Lions Clubs International is located on a sprawling campus of nine and a half acres in a building owned by the Association in Oak Brook, Illinois, USA. The building and the vast areas appropriately affords generous space for future expansion of operations for the world's largest and latest growing service organization.

The interior is a bustle of activity, forming the core of the global Lions movement. A Lions visitor arriving at the reception center on the ground floor first registers himself, and then a guide speaking any one of the official languages of lions takes him around the building.

The International Office is the main source of information on the world of Lionism. A call or letter to the international office will afford you the needed help. Always be specific. Do not include items relating to more than one department in the same letter.

Introduction

Melvin Jones
Founder
Lions Clubs International
1879-1961

Melvin Jones was born on January 13, 1879 in Fort Thomas, Arizona, the son of a United States Army captain who commanded a troop of scouts. Later, his father was transferred and the family moved east. As a young man, Melvin Jones made his home in Chicago, Illinois, became associated with an insurance firm and in 1913 formed his own agency.

He soon joined the Business Circle, a businessmen's luncheon group, and was shortly elected secretary. This group was one of many at that time devoted solely to promoting the financial interests of their membership. Because of their limited appeal, they were destined to disappear. Melvin Jones, then a 38-year-old Chicago business leader, had other plans.

"What if these men," Melvin Jones asked, "who are successful because of their drive, intelligence and ambition, were to put their talents to work improving their communities?" Thus, at his invitation, delegates from men's clubs met in Chicago to lay the groundwork for such an organization and on June 7, 1917, Lions Clubs International was born.

Melvin Jones eventually abandoned his insurance agency to devote himself full time to Lions at International Headquarters in Chicago. It was under his dynamic leadership that Lions clubs earned the prestige necessary to attract civic-minded members.

The association's founder was also recognized as a leader by those outside the association. One of his greatest honours was in 1945 when he represented Lions Clubs International as a consultant in San Francisco, California, at the organization of the United Nations.

Melvin Jones, the man whose personal code- "You can't get very far until you start doing something for somebody else" - became a guiding principle for public-spirited people the world over, died June 1, 1961 at 82 years of age.
